

MODA MODULAR WALL PANEL SYSTEM

PRICING GUIDE

WHERE MODULAR DESIGN MEETS METAL CRAFTSMANSHIP.

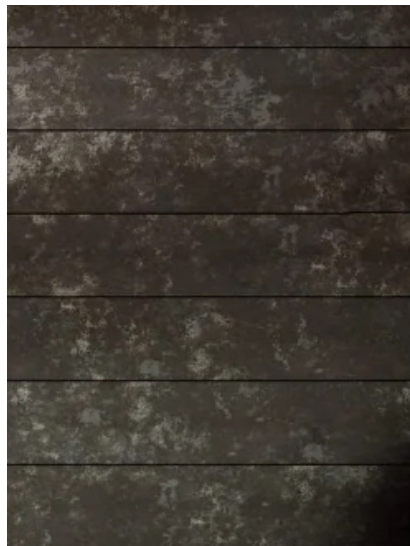

Moda offers designers and architects the patinas, patterns, and finishes of Zahner metals in four mix-and-match panel sizes. Its clean, modern lines provide symmetry and order in various metal textures and colors, from moderately reflective to muted and earth-toned. Easily specified, ordered, and installed, Moda is a cost-effective and convenient way to add visual interest and durability with flexibility and economy.

This pricing guide provides visually distinct renderings of popular Moda configurations, materials, and finishes, as well as the costs associated with each use case. Think of it as a design-to-cost road map that helps you quickly benchmark your design vision.
